

PLACEHOLDER

This file is a placeholder. It is not a real teardown and must be replaced before the site goes live.

Replace it with an example teardown PDF at the same path:

`public/example-teardown.pdf`

It is linked from the free-teardown section on /en and /fr as

"See a real teardown before you ask for yours."

The copy beside the link currently says the store name has been removed. If you publish a named teardown instead, update `teardown.sampleBody` in `src/dictionaries/en.ts` and `fr.ts` to match.
